● ABOUT ME

Results-driven web developer and performance marketer with 6+ years of experience building high-performance financial, corporate, and e-commerce platforms using React.js, Next.js, TypeScript, and WordPress, combined with hands-on management of international Meta and Google Ads campaigns. Skilled in CRM integration, performance optimization, CI/CD, localization workflows, and paid media management, with a strong track record of delivering scalable web solutions and marketing campaigns that drive measurable lead growth across the finance and retail sectors.

● WORK EXPERIENCE

SENIOR WEB DEVELOPER & DIGITAL MARKETING SPECIALIST – STONEFORT SECURITIES – 01/07/2025 – Current – DUBAI, UNITED ARAB EMIRATES

- Developed and maintained **trading, partner, and regulatory web platforms** using **React.js, Next.js, TypeScript, and CSS**.
- Built and launched multiple **financial web properties**, including **partner sites, copy trading platforms, and CMA-focused websites** for the UAE market, with strong attention to **performance, scalability, and compliance**.
- Planned and managed **85+ Meta Ads lead-generation campaigns** across **20+ international markets**, including MENA, Africa, Latin America, and Southeast Asia, generating **74,000+ leads** at an average cost per lead of **\$0.28** while maintaining compliance with financial advertising policies.
- Delivered **12.5M+ impressions** and **300K+ link clicks** at an average CPC of **\$0.07** and a **2.4% CTR** through geo-targeted audience segmentation, localized ad creatives, and continuous A/B testing, driving **6,100+ CRM-qualified conversions**.
- Created **social media posts and ad creatives** for Stonefort's brand channels, ensuring **visual consistency** across campaigns, landing pages, and web properties.
- Integrated websites with **CRM systems and third-party platforms through APIs** to manage lead flows, account-related processes, data synchronization, analytics, and reporting.
- Managed **Customer.io** for domain health, email scheduling, and campaign workflows, improving **email deliverability, automation, and customer engagement**.
- Created **dynamic website workflows** that displayed content based on **user IP address and country**, enabling localized and region-specific user experiences.
- Built and managed **CI/CD pipelines using GitHub and Vercel** and optimized performance through **code splitting, caching, and API load balancing**, improving website speed and **Core Web Vitals scores by more than 40%**.
- Worked directly with **backend .NET services** and design requirements to build **responsive, high-performance web interfaces** aligned with financial compliance standards and business objectives.
- Developed **custom WordPress and Elementor components** for marketing pages, onboarding flows, and campaign-focused landing pages.
- Implemented **authentication flows, analytics tracking, and API integrations** across Stonefort sub-brands, including **Partners, Copy Trading, and CRM-connected websites**, while migrating legacy pages into **modular and reusable Next.js and React components**.
- Improved **SEO, accessibility, responsive design, and cross-platform consistency** across multiple digital properties.

CHIEF TECHNICAL OFFICER & WEB APP DEVELOPER – AWF GHANI – 12/2023 – Current – DUBAI, UNITED ARAB EMIRATES

- Oversaw **IT operations**, including **website development, deployment, maintenance, and performance optimization**, ensuring smooth and reliable system performance.
- Created **custom websites from scratch**, developing **unique plugins and templates** without relying on pre-made themes and delivering fully tailored business solutions.

- Managed the company's **social media platforms**, creating **visual content and marketing posts** to improve brand recognition and audience engagement.
- Developed an **automated trading Expert Advisor in MQL4** with **backtested and risk-managed strategies** for live market execution.
- Designed and built a **fully customized money management platform on WordPress** with **custom plugins and personalized admin and user dashboards** for managing investor records and financial data.
- Designed and launched **responsive, multilingual e-commerce stores** for multiple brands, improving user experience and meeting client requirements.
- Created a **food delivery web application** with **order tracking and restaurant analytics dashboards**, reducing delivery processing time by **40%**.

DIGITAL MARKETING SPECIALIST (PART-TIME) – SHAMS BARAKAAT FURNITURE TRADING LLC – 01/03/2024 – Current
– DUBAI, UNITED ARAB EMIRATES

-
- Managed **end-to-end Meta Ads campaigns** for a UAE furniture retail brand, generating **1,200+ WhatsApp sales conversations** at under **AED 6 (~\$1.60) per lead** and building the store's primary customer inquiry pipeline.
 - Reached **190,000+ unique users** with **450,000+ impressions** through **geo-targeted campaigns, seasonal sale promotions, and audience retargeting** within the UAE market.
 - Created **social media posts, ad creatives, and product visuals**, maintaining a **consistent brand presence** and driving engagement across **Facebook and Instagram**.

WEB DEVELOPER – NAQSTECH DIGITAL – 08/2021 – 11/2023 – LAHORE, PAKISTAN

-
- Delivered **30+ client projects end to end**, consistently meeting deadlines and maintaining a **95% client satisfaction rate** through organized multi-project management.
 - Led a **team of six developers**, reducing development time by nearly **30%** through structured planning, hands-on training, and collaborative workflows.
 - Integrated **third-party APIs** to streamline processes and enhance site performance, cutting development time by **25%**.
 - Personally handled **quality assurance testing** before every launch, with more than **90% of projects** going live without significant bugs.
 - Boosted **organic traffic by 50%** through **on-page SEO** and **Google Analytics-driven performance optimization**.
 - Applied **DevOps best practices**, cutting release cycles by **35%**, and set up and managed **AWS deployments** with **99.9% uptime**, scaling capacity to handle **50% more traffic**.

FRONT-END DEVELOPER / INTERNSHIP – DYNAMIC ONLINE TECHNOLOGIES – 01/2020 – 07/2021 – LAHORE, PAKISTAN

-
- Built **responsive, user-friendly interfaces** using **HTML, CSS, and JavaScript**, and created and launched **5+ static websites** with custom interactive features.
 - Built and launched a **fully customized Shopify e-commerce store** using **Liquid**, delivering a tailored online shopping experience.
 - Integrated **third-party APIs** to track user behavior and purchases, supporting **data-driven marketing decisions**.
 - Handled **troubleshooting, theme customization, and bug fixes**, reducing website downtime by **40%**.
